## What You Need to Know

The credit scores provided are based on the VantageScore 3.0 model. For three-bureau VantageScore credit scores, data from Equifax, Experian, and TransUnion are used respectively. Any one-bureau VantageScore uses Equifax data. Third parties use many different types of credit scores and are likely to use a different type of credit score to assess your creditworthiness.

<sup>1</sup>Under certain circumstances, access to your Equifax Credit Report may not be available as certain consumer credit files maintained by Equifax contain credit histories, multiple trade accounts, and/or an extraordinary number of inquiries of a nature that prevents or delays the delivery of your Equifax Credit Report. If a remedy for the failure is not available, the product subscription will be cancelled and a full refund will be made.

<sup>2</sup>Monitoring from TransUnion® and Experian® will take several days to begin.

<sup>3</sup>Dark Web Monitoring scans thousands of internet sites where consumers' personal information is suspected of being bought and sold, and is constantly adding new sites to those it searches. However, the internet addresses of these suspected internet trading sites are not published and frequently change, so there is no guarantee that ID Watchdog is able to locate and search every possible internet site where consumers' personal information is at risk of being traded.

<sup>4</sup>The monitored network does not cover all businesses or transactions.
